(54) METHOD FOR BIDDING FOR LICENSING OF
 PATENT RIGHT OR THE LIKE

(R_k, k=1, ..., N).

COPYRIGHT: (C)2003,JPO

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a contract method for maximizing the possibility of proper licensing of patent, etc., by introducing a market mechanism (competition principle) when concluding the license contract of intellectual property right such as patent right so as to properly select a licensee with implementing capacity and so as to make the contracted licensee take proper responsibility.

SOLUTION: A prospective licensing amount P_k (k=1, ..., N) during a prescribed period T after contract and a contract temporary money (initial payment) X_k (k=1, ..., N) and/or a licensing rate (running royalty) Y_k (k=1, ..., N) are presented from each applicant. It is desirable to fix the lowest limit price to the contract temporary money and/or the licensing rate in advance. A period income R_k=X_k+P_k*Y_k (k=1, ..., N) is calculated.

lated by the formula by each applicant based on the presented values to impart a licensing contract right to an applicant presenting its maximum value $R_{\max} = \max$
